Profile

RF Engineer at Huawei Pakistan, working on 2G/4G/5G network performance: monitoring KPIs, diagnosing faults, and using data analytics and Power BI dashboards to guide optimization decisions. Combines that telecom background with hands-on data science skills — Python, SQL, and statistical modeling — to turn network and operational data into clear, actionable reporting. Background spans ICT, CCNA (Routing & Switching), cybersecurity, and antenna/RF design, built through industry roles, freelance work, and IBM, Google, and Cisco professional certifications. Open to Data Analyst, Data Scientist, or RF Engineering roles in Germany (relocating; German A1/A2).

Experience

RF Engineer — Huawei Pakistan

Nov 2024 – Present | Islamabad, Pakistan

- Monitor and optimize 2G/4G/5G network performance through KPI analysis and fault management
- Use data-driven reporting and industry tools for troubleshooting and performance tracking

RF Engineer — Huawei Pakistan

Aug 2024 – Nov 2024 | Islamabad, Pakistan

- Worked with RAN-Jazz NPM and Power BI for network performance monitoring and KPI analysis
- Tracked VoLTE performance, traffic metrics, and Grade of Service across circuit- and packet-switched services

Project Management — Huawei Pakistan

Apr 2024 – Aug 2024 | Islamabad, Pakistan

- Managed site installations end-to-end: equipment processing, QC, and delivery
- Applied Agile project management and QEHS assurance practices across site rollouts

Data Dumping Expert — Pakistan Meteorological Department

Mar 2024 – Apr 2024 | Islamabad, Pakistan

- Worked with Linux administration, SSH remote access, and MongoDB deployment on Azure

Virtual Tech Support Intern — GAOTek Inc.

Feb 2024 – Apr 2024 | Manhattan, NY (Remote)

- Supported WordPress-based web development projects: content management, theming, and plugin integration

Frontier — exponential-X Technologies

Nov 2023 – Jan 2024 | Islamabad, Pakistan

- Handled customer inquiries and technical issues with a customer-centric approach

Lab Engineer — Air University

Oct 2023 – Jan 2024 | Islamabad, Pakistan

- Used HFSS and CST for antenna design and wave propagation analysis
- Used MATLAB and Proteus for designing and simulating digital communication systems

Freelance Network Designer — Fiverr

2019 – Feb 2023 | Remote (international clients)

- Designed and simulated enterprise network topologies in Cisco Packet Tracer, covering routing, switching, and VLANs

Internship, Fixed & Wireless Access N/W Ops — PTCL

Aug 2022 – Sep 2022 | Rawalpindi, Pakistan

- Implemented network monitoring strategies for real-time visibility and issue resolution

Education

Bachelor's Degree, Electrical, Electronics & Communications Engineering

Bahria University | Sep 2019 – Jul 2023 | Islamabad, Pakistan

Skills

Data Science & Analytics: Python (Pandas, NumPy, Scikit-learn), SQL, Power BI, Statistical Modeling, ETL

Telecom & RF Engineering: 2G/4G/5G KPI Analytics, RAN Optimization, VoLTE, HFSS/CST, Antenna Design

IT Systems & Security: Linux Admin, CCNA (R&S), Azure, Cybersecurity, SSH Automation, MongoDB

Certifications

- IBM IT Support Professional Certificate — IBM (2023)
- Google Project Management Professional Certificate — Google (2023)
- IBM Cybersecurity Analyst Professional Certificate — IBM (2023)
- Cybersecurity Operations Fundamentals Specialization — Cisco Networking Academy (2023)
- Microsoft Azure for Data Engineering — Microsoft (2023)

Languages

English (Professional Working) | German (Elementary, A1/A2)
